## Kentucky's Law Enforcement Community

---

The premise of Changing How Police View Policing is that much of the traditional manner in which police have been pre-screened, selected and hired, then trained and assigned to their work is broken, outdated and largely ineffective for police work in today's society. Furthermore, how police view themselves and their work can be successfully molded and shaped through selection practices and training irrespective of the long-standing culture within policing and to constructively strike at the root of dysfunctional selection and academy systems.
